4 campaigns	5 campaigns	3 campaigns	2 campaigns	7 campaigns

Key Wins & Successes

100% — **Logo AI**

Citation readiness · article #1 on Google

buddymagazine.org

100% — **Hoodie**

AIO positions 3 & 5; named in ChatGPT, Gemini & Perplexity

findarticles.com

100% — **Business Card**

Brand mentions in ChatGPT & AIO

accountingbyte.com

98% — **Flyer AI**

AIO positions 2 & 5 with article link; brand named in ChatGPT

adaptnetwork.com

100% — **Business Card**

AIO, SERP #1 and ChatGPT links to product pages

tesseract.academy

93% — **Hoodie**

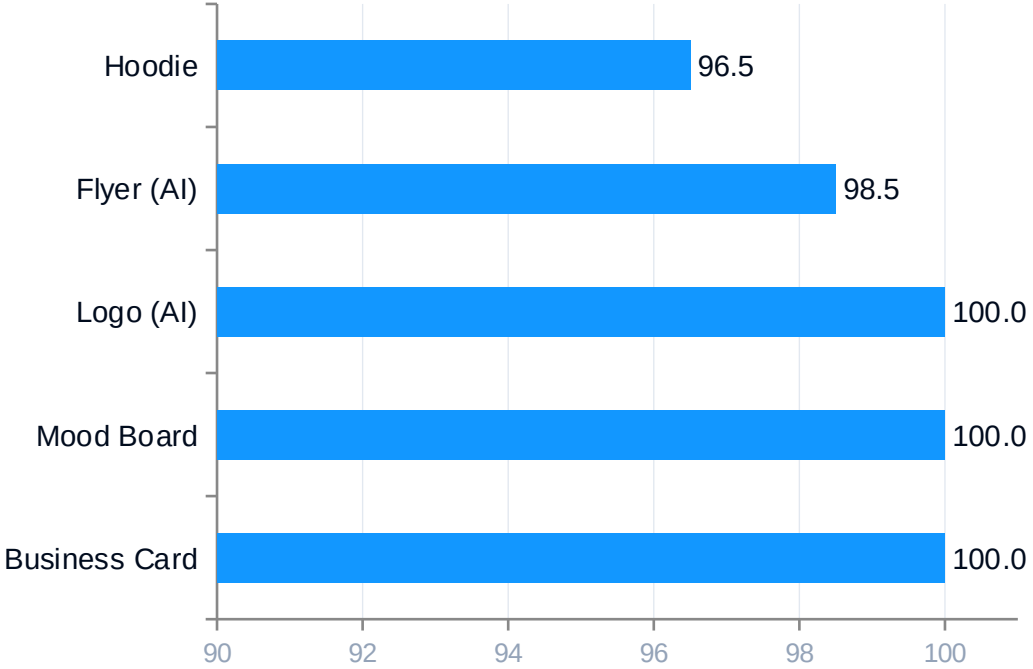

AIO #1 for a non-branded prompt; article #1 on Google

fabulousmomlife.com

Large numbers are each placement's citation readiness score (Adobe extension: "Is your webpage citable?"), not AI visibility.

Citation Readiness Scores

Adobe extension “Is your webpage citable?” score, averaged by product line. Logo (AI): 1 of 5 placements scored.

7 Placements at 100%

9 Placements at 95%+

99% Avg score

Share of Voice Across AI Platforms

Hoodie campaign, branded prompts (both name Adobe Express)

Prompt Set 3

Is Adobe Express or print-on-demand better for designing personalized family vacation hoodies?

AIO	ChatGPT	Gemini
30%	62.5%	46.7%

Prompt Set 4

Step-by-step: How to design a custom hoodie using Adobe Express

AIO	ChatGPT	Gemini
80%	40%	80%

Key Insight: On branded prompts, Adobe Express led in AIO and Gemini for the how-to prompt (80%) and in ChatGPT for the comparison prompt (62.5%). Next: measure SOV on non-branded prompts.

Next Steps & Recommendations

Scale What Works

- Replicate the Business Card playbook (strongest AI results) across other products
- Expand Hoodie campaign model to new product lines
- Leverage high-performing prompt structures for new content

Optimize & Analyze

- Deep-dive on newer Hoodie campaigns currently in Analyze phase
- Test query fan-out tools for broader prompt coverage
- Track SOV metrics across all product lines, not just Hoodie

Address Gaps

- Get ChatGPT to link the Business Card page (brand named, rarely linked)
- Track share of voice on non-branded prompts, not just branded ones
